Subject: Punch List - Gold King Mine site 10/31/15
DRAFT Punch List-10-31-2015 SW.docx

Hello folks,

Attached is a punch list that Jan (START) and I developed in the last week. The version attached provides some additional detail on specific area intended to help describe the areas for some that are not as familiar with the specific locations. There may be a couple redundant items regarding road side areas near the Red and Bonita but otherwise its broken out into units of the site areas as described/used over the course of the job.

Major items related to the Gold King mine dump were not included as we are making final plans as to regrading and toe of the dump berm. This is still something that Christoph and Matt were going to follow up on next week.

Thanks for the help and follow through on these and let me know if you have questions. If you need to modify the approach on any of these do as you judge appropriate.

Steve
